

TECHNICAL INFORMATION SHEET

SkyScape™ Slope Geogrid 10' x 150'

Item Description

Slope Geogrid 10' x 150'

Item Number

W56SKY5001

Product Information

Description:

The SkyScape Slope Geogrid helps stabilize slopes greater than 2:10 or 10°. The geogrid consists of high molecular weight, high tenacity multifilament polyester yarns that are woven into a stable network placed under tension. The high strength polyester yarns are coated with thermoplastic polyvinyl material, making it inert to biological degradation and resistant to naturally encountered chemicals, alkalis and acids. Use with SkyScape Slope Cleat (**W56SKY5000**).

Method of Application:

1. Starting from one corner of the highest point of the roof, unroll SkyScape Slope Geogrid.
2. Sides and ends of the roll may be abutted to adjacent rolls.
3. Cut to remove any leftover material.

Storage:

- Deliver and store products in original packaging with Manufacturer's labels and materials list intact and signed off.
- Store Products in designated weather protected areas, elevated from ground and protected from environmental damage.

Shelf Life:

- N/A

Coverage Rate:

- 1,500 square feet per roll

Clean-Up:

- Gather and dispose all debris upon completion of work.
- Clean all surfaces and inspect final assembly for approval.

LEED® Information:

Post Consumer Recycled Content: 0%
Post Industrial Recycled Content: 0%
Manufacturing Location: Murfreesboro, TN.

SkyScape™ Slope Geogrid 10' x 150'

Physical Properties

<u>Property</u>	<u>Value Typical Performance</u>	<u>Test Method</u>
Ultimate Strength	7400 (lb/ft)	ASTM D6637
Creep Limited Strength	4774 (lb/ft)	ASTM D5262
Aperture Size	0.75" x 0.75"
